

PRIME MINISTER • PREMIER MINISTRE

November 28, 2009

Greetings from the Prime Minister

It gives me great pleasure to extend my warmest greetings to the Unitarian Service Committee (USC) and all those participating in events commemorating the 100th Anniversary of Dr. Lotta Hitschmanova's life and accomplishments.

Throughout her lifetime, Dr. Lotta worked tirelessly to bring awareness to the plight of the world's sick, suffering, and needy. Her words and actions have challenged and motivated Canadians to give their time and resources to help people in need across the globe. Today, the USC continues to fulfill Dr. Lotta's legacy of global stewardship through programs like the Seeds of Survival, which promotes long-term food security for marginal farming communities in developing nations.

On behalf of the Government of Canada, I would like to recognize and applaud the tremendous achievements of Dr. Lotta Hitschmanova. Her dedication to service and commitment to the well-being of others is truly an inspiration and example to us all.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stephen Harper".

*The Rt. Hon. Stephen Harper, P.C., M.P.
Prime Minister of Canada*
